Shredder™ Guitar Controller

## Sony PlayStation Series

Guitar Mania Shredder Guitar Controller for Guitar Hero

### Only Pro Alternative

Guitar Mania controllers are the only alternative high-performance controllers available that are fully compatible with the Guitar Hero software series for PS2!

### Excellent Additional Controller

In addition to being a high-performance controller, the Shredder is perfectly suited as an additional controller for extra players in multiplayer mode

### Patent-pending Button Cluster

Players love the durable hardware and advanced button placement because it lets them kick out the jams without accidentally pausing the game!

### Super Whammy System Whammy Bar

Chrome-look whammy bar system is finely tuned and spring loaded with high density coil spring for extreme durability and excellent response!

### Smart Sensors

The Smart Bidirectional Accelerator sensor doesn't just feature one sensor-it features two sensors so players can activate the Star Power mode by simply "shaking" the controller!

### Advanced Fret Buttons

FeatherTouch Fret Buttons activate with the slightest touch-no need to depress the buttons all the way!

### Hot Styling

The heavy metal body style and overall design delivers a more balanced look and feel for superior realism and a maximum rock 'n' roll experience!

### Environmentally Friendly

All components comply with the new stringent RoHS standard set forth by the European Union.

## Product Series

Guitar Mania presents the latest high-performance guitar controllers for use with the hottest PlayStation 2 music game series in history, Guitar Hero! MTV, Gibson Guitar, Vans sportswear and music industry giants have come together to promote the award-winning game into the stratosphere, and, aside from being the only pro alternative controllers available for the game, Guitar Mania controllers make excellent primary or secondary controllers for the game's multiplayer mode.

## Product Description

The Shredder guitar controller offers top Guitar Mania design features for an entry level price, including the patent-pending recessed Start button, which prevents players from accidentally pausing the game. The Shredder also comes complete with the Guitar Mania Super Whammy System whammy bar and FeatherTouch Fret Buttons on a fast-action neck. Its upgraded Rocking Rhythm strum bar is tuned for tight and accurate rhythmic input, and the Smart Bidirectional Accelerator sensor allows users to enjoy the Star Power bonus mode of the game by simply "shaking" the controller-instead of misplaying notes while keeping the guitar in a vertical position. The compact size is perfect for kids or grownup guitar heroes on the go, and the Shredder is friendly to the environment. All materials used to manufacture the controller have passed the tough European RoHS standard.

**"Guitar Hero might just be the best rhythm game ever made." - GameSpot**

Guitar Hero took the Editor's Choice Best of Show prize at the E3 convention in late 2005, and the game has received rave reviews from the toughest gaming critics. GameSpot awarded Guitar Hero 5 out of 5 stars; 1UP gave the game 10 out of 10 stars and the ratings never dropped below 4.5 stars from a possible 5 stars in reviews from the remaining top gaming industry publications, including Gamespy, GamePro and more
